May 24, 1999

Mr. Munson:

Continental Lime, Inc.'s (CLI) Cricket Mountain Plant proposes to move a 24'x48' mobile office trailer from the plant site to the quarry (see figure 1). The permitted quarry change room no longer provides adequate facilities for the quarry staff. The trailer will serve as a change room, lunch room and office for the quarry personnel. The presently permitted lunch room/ change room, which also houses electrical equipment, will be converted to a storage facility.

CLI proposes that the trailer will be located adjacent to the existing quarry buildings in a permitted area of disturbance. CLI also proposes that a septic system and a 10,000-gallon water tank will be installed. These facilities will meet or exceed all state and/or county regulations.

Given the temporary nature of the facility, reclamation of the trailer and associated parking space will follow the procedures detailed in the permitted Plan of Operations (POO) for the permitted quarry structures.

Enclosed, please find a map (figure 1) showing the location of the quarry facilities in the nw/4 / ne/4 of sec. 36, T21S, R10W; as well as a portion of 50 scale map (figure 2). Section 36 is under lease to CLI (Utah Mineral Lease ML- 35572).

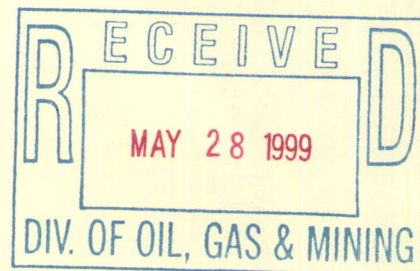

If you have any questions, please feel free to contact me at (435) 864-3823 extension 35 or Steve Herron at (801) 264-6877.

Sincerely,

*Victor L. Kastner*

Victor L. Kastner  
Quarry Supervisor
